EnrollNOLA**Fall 2017 EnrollNOLA Annual Report Appendix****Published:** November 7, 2017

The data in the annual report detail demand and enrollment data for programs that participated in OneApp Main Round or Round 2 during the 17-18 OneApp. The demand data was extracted from EnrollNOLA's enrollment system where applications are submitted. The demand data is adjusted from the raw data to account for students applying to return to their current school and similar factors. The demand data includes all choices (excluding previously mentioned exemptions) whether the applicant was eligible or not. Eligibility is particularly relevant for early childhood (PK4) data because starting in the 16-17 application cycle, all early childhood applicants had to verify their eligibility for the programs they applied to in order to be eligible to receive an assignment. In this report all choices are counted even if applicants did not complete the verification process at all. However to even select the programs families had to answer eligibility questions so all families that selected programs were initially eligible based on self reported data. The demand data as presented represents interest in programs among applicants who may have been eligible.

10/1 enrollment data is not currently included, because as of the time of the report, that was not publicly available. The report will be updated when that data is available.

The table below defines the column headers in the file. Please reach out to support@enrollnola.org with any questions.

Column Header	Definition
School Code	School Code EnrollNOLA used to uniquely define school and program. In many cases, this is the state site code.
School Name	Name of school or program
Grade	Grade the school or program defines that the data applies to
Anticipated 10/1 Enrollment	How many students the school indicated they wanted to serve on October 1, 2017 in the grade in the early spring of 2017
MR Seats Available for New Students	After accounting for current students that were reassigned in the Main Round match, the number of open seats that were available to new students.
MR Demand: Number of #1 Ranks	The number of applicants who ranked the school #1 on their Main Round application in the given grade.
MR Demand: Overall Ranks	The number of applicants who ranked the school anywhere on their Main Round application in the given grade.
MR Filled All Available Seats?	Indicates if the school filled all their open seats in the Main Round match.
R2 Seats Available for New Students	After accounting for current students that were reassigned in the Round 2 match, the number of open seats that were available to new students.
R2 Demand: Number of #1 Ranks	The number of applicants who ranked the school #1 on their Round 2 application in the given grade.
R2 Demand: Overall Ranks	The number of applicants who ranked the school anywhere on their Round 2 application in the given grade.
R2 Filled All Available Seats?	Indicates if the school filled all their open seats in the Round 2 match.
Late Enrollment Placements	How many placements were made to a school and grade during Late Enrollment (July through October 1st). This counts placements even if the students transferred out before October 1st.
Actual 10-1 Enrollment	Enrollment data as of October 1, 2017 based on either officially state reported data or EnrollNOLA system data.
Notes	School specific notes about the school's data.
